

# Orluna® Self Test EMG for 0-10V Datasheet

This product is a self test emergency conversion for 0-10V controlled drivers, upgrading your luminaire with a pre-wired 3hr maintained battery pack featuring high-performance Ni-Cd batteries and a self test for emergency feedback.

We also offer DALI addressable conversion (ED) and standard conversion (E), all of which are supplied linked to your driver for ease of installation.
